1 Test certificates

NNIT provides pre-defined test certificates that can be used by service providers when testing their solutions in the Nemlog-in 2 integration test environment.

List of test certificates:

| Organisation | CVR-number | employee | RID-number |
|---------------------|-------------------|----------------------|-------------------|
| Økonomistyrelsen | 10213231 | Henrik Henriksen | 93401342 |
| Økonomistyrelsen | 10213231 | Morten Mortensen | 93947552 |
| Økonomistyrelsen | 10213231 | Heidi Bruun Petersen | 39502696 |
| Økonomistyrelsen | 10213231 | Svend Sørensen | 75817932 |
| Økonomistyrelsen | 10213231 | Charlotte Henriksen | 18756718 |

1.1 Using the test certificates

Install

In order to use the test certificates you must copy the certificate files (html files) to a folder on your network or on your local machine/PC.

The certificate files can be downloaded from the integration test environment start page.

How to use

1. When user enters the Nemlog-in login page, user must select the second tab ("Log ind med nøglefil").
2. In the NEM ID window user must select the button "Gennemse..." and browse to the location and specific test certificate (html file) he/she wants to use. Click "Open" to select test certificate.
3. Click "OK" in the NEM ID window.
4. Enter the password for the test certificate and press "OK" (password = "Test1234").

2 Change log

| Date | Version | Description of Changes | Initials |
|------------|---------|---|----------|
| 13.01.2012 | 0.a | Document created. | MWL |
| 17.01.2012 | 0.b | Updated with correct location of certificate files. | MWL |
| 17.01.2012 | 1.0 | Approved. | SQWI |
| 29.11.2019 | 1.1 | Updated with renewed certificates | AXPE |
